Aeron **P-101**

50W x 2 Class D Stereo Amplifier

Model No.:	P-101
Chipset	TPA3116D2
Dimension	115 x 136 x 39mm
Weight	567g (approx.)

Description

The P-101 equipment with a Class D amplifier to deliver at least 50W output power per channel on the main speakers. The Class D amplifier is the most efficient amplifier among the Class A, B and AB amplifiers in the market.

More efficiency means for a given power level applying to the amplification system more output power is generated to become audio signal rather than more heat is generated and dissipate in the system. Therefore you are more "GREEN" while you are listening to the music.

Features & Specification

- Input: 3.5mm line in
- Stereo Speaker out, Pre out, Headphone out x 2
- 30 x 2 Level meter LED (4 mode)
- Switch Select Headphone or Class D Output
- Hardware Loudness EQ
- Maximum output power:

  Class D:

  - 50W+50W(4ohm) ;
  - 30W+30W(8ohm) ;

  Headphone:

  - 270mW / 16ohm ,
  - 450mW / 32ohm at 1kHz
- Headphone Drive Ability: 16 - 600ohm
- Frequency response:20-20kHz(±0.5dB)
- Integrated de-pop function
- Power Supply: 120W (24V/5A)
- Very fine finishing metallic case

Package content

- Class D Amplifier x 1
- User Manual x 1
- USB cable x 1
