Package Contents

1x Wireless Adapter 1x Optical Cable 1x User Guide
1x 3.5mm Audio cable 1x USB Type C charging cable

Product Parameter

Bluetooth Version	BT5.0
Bluetooth Profile	A2DP / ACRCP
Audio Codec	SBC/AAC/aptX/aptX LL/aptX HD
Range	100feet/30 meters(open area)
Charging Power	DC 5V
Battery Capacity	450mah
Working Time	Approx. 18 hours(TX mode)
	Approx. 13 hours(RX mode)
Charging Time	2.5hours
Sample Frequency	44.1/48/96KHz
Distortion Rate	<1%
Frequency Range	2.402-2.480GHz
Frequency Response	40Hz-18KHz
Working Current	28ma at TX/38ma at RX
Working Voltage	3.2V-4.2V
Dimension	68x68x20mm(LxWxH)
Weight	52.5g

Product Diagram

Features

- CSR8675 chipset with BT Version 5.0
- Support aptX / aptX Low Latency / aptX HD
- HDP-1 can pair with 2 Bluetooth receiving devices on TX mode
- It supports TWS on RX mode
- Support OPTICAL input and output on both mode
- Support USB audio input on TX mode

Basic Control

Power on: Press and hold MFB button for 3 seconds
Power off: Press and hold MFB button for 5 seconds

Solid Green LED	Fully Charged
Flashing Red and Green	Pairing in TX/RX mode
Green LED Flashing Slowly 3times Intervaly	Playing or mute at TX mode
Green LED Flashing Slowly	Playing
Green LED Flashing slowly 3times intervaly	Connected but unworking
Red Led Flashing 2times	Low Battery

How to Use

Charging

- 1.Connect the TypeC end of the charging cable to the charging port of the Bluetooth adapter.
- 2.Plug the USB end of the charging cable to an USB charging port or any active USB port
- 3.The Led indicator will turn Red when charging.It will be solid Green when The device is fully charged.

Note:

- You can use the adapter when it is charging
- On TX mode when you connect to computer using the USB TYPEC cable you don't need to connect an additional aux cable.Our USB TYPEC cable can charge and transmit audio as well.

Pairing

Pair in TX mode

- 1.Set it to TX mode and connect it to your audio device by cable
- 2.Set the audio input switch of HDP-1 to the matching position
- 3.Make HDP-1 enter pairing mode
- 4.Make your receiving deivce enter pairing mode
- 5.A tone of successful connection should be heard from receiving device

Pair in RX mode

1. Set the mode switch on the RX side
2. Set the audio source output switch to the matching position
3. Connect the correct audio cable to the audio out port
4. Make HDP-1 entering pairing mode
5. Turn on Bluetooth of cell phone and search
6. Tap "Aeron HDP-1" to connect once you see it

Note:

The adapter can remember previous paired devices and will attempt to pair with devices automatically without going into pairing mode again.

Pair with two devices at the same time on TX mode

- 1.Follow the previous instructions to pair the HDP-1 with your first device
- 2.Press MFB button for 2 seconds to enter the pairing mode
- 3.Immediately set your second receiving device into pairing mode
- 4.Both receiving devices will simultaneously hear the transmitted audio

Note:

- The sound will gradually increase from small to large after connection
- The adapter will automatically re-pair when power on next time

TWS connection in RX mode

- 1.Power on both HDP-1
- 2.Set the mode switch of both HDP-1 to the RX side
- 3.Click MFB twice of both HDP-1 to enter TWS pairing mode and paired
- 4.Pess MFB button of either HDP-1 for 2 seconds to enter pairing mode
- 5.Open the Bluetooth of your cell phone to search and paired with HDP-1.
- 6.Both devices will play audio from your cell phone synchronously

Care and Maintenance

- Do not expose the adapter to direct sunlight or extreme heat
- Do not try to take the adapter apart as it may cause serious damage
- Do not drop it on hard surfaces as it may damage the interior circuitry
- Do not use chemicals or detergents to clean the product
- Do not scrape the surface with sharp objects

Troubleshooting

My adapter will not power on

Please recharge it and make sure it has enough battery to power on.Plug the unit into a charger and see if the LED indicator turns red.

I am having trouble pairing with my Bluetooth device

- Your Bluetooth device supports the Bluetooth profiles listed in the parameter
- Your adapter and your device are next to each other or within 3 meters
- The adapter and your device are in pairing mode

I can not hear any music from my sound system

- Your sound system is connected to it and cable correctly connected
- Make sure that you set the correct mode and the correct audio source
- Make sure that the music volume is at an audible level on both side
- Make sure your audio device is playing music via Bluetooth.Some devices like computer require manually select the music output way.
